

BFGOODRICH BAJA T/A KR2

*BFGoodrich Tires reintroduces the **37x12.50R17** in the **BAJA T/A KR2** Racing Tire Family*

Now ready for order, BFGoodrich Tires returns to its KR2 family offering: the 37" Baja T/A KR2. The KR2 tire offers superior performance and increased mobility in soft soils, enhanced traction in mud, and improved braking in loose and rocky soil.

CAI	MSPN	Description
812578	27389	35x10.50R15 KR2
921339	87810	35x10.50R15 KR2 SXS/UTV
395142	96661	37x12.50R17 KR2 ★

The KR2 has a variety of applications depending on the size needed. 35" works well for the Class 10 and SXS/UTV space, keeping in mind the differing SKUs for the 10.50 width in particular. The 37" brings a taller and wider version of the tire into play targeted at Limited, Class 1, and Pre-Runners.

In addition, the 37" will have the BFGoodrich colored logo on the side wall.

How does this compare to the KR3? The KR3 has more biting edges, which provides more progressive traction, and more predictable lateral grip.
